Utah Construction Company is Building 40-Mile Pipe Line To the Desert.

### THREE PUMPING STATIONS.

Big Undertaking to Supply the Grading Camps With the Necessary Water While at Work.

The problem of a water supply on the desert for the men and teams employed in throwing up the grade for the Western Pacific around the south end of the lake has in a measure been solved by the "marine" engineers of the Utah Construction company. After experimenting on artesian wells the construction company, acting under the advice of experts employed, concluded to build a pipe line of 40 miles in length. Work has now commenced on this line, and Mr. Amundsen of Grantsville has been placed in charge of the department, which is to furnish water to the grading camps.

The pipe line now being built runs from the Burnt Spring in Skull valley along the line of the Western Pacific to the edge of the Great American Desert, a distance of some 40 miles. This is in itself an undertaking, but when it is taken into consideration that three pumping stations are to be installed and operated in order that the water may be delivered, some idea of the extent of the work can be formed. The construction company is fulfilling their contracts by installing the first pumping station will be erected at the springs to force the water through the pipe, the second at Hog's Back, to lift the water over the rise, and the third at Low Pass.

### C. A. BLAKE MAY GET IT.

Will in All Probability be Appointed Division Engineer.

Charles A. Blake of Springfield, Ill., in all probability will be appointed division engineer of the Rio Grande to fill the place made vacant Nov. 3 by the resignation of Mr. Baxter. Mr. Blake is well known here, having for some time past been assistant to Mr. Baxter. He is not the first engineer that Springfield has turned out. It will be recalled that E. J. Yand, now chief engineer of the D. & R. G., and Western Pacific, was a Springfield man.

### "ART" GATES PROMOTED.

Appointed Chief Clerk to Gen. Supt. A. E. Welby of R. G. W.

Probably the youngest chief clerk to a general superintendent of a representative railroad system is Arthur W. Gates who has been appointed by Mr. Welby of the Rio Grande Western to take the place made vacant by the resignation of William A. Robinson. The appointment is a popular one among the employees and his friends are now congratulating him. Mr. Gates has made a good record since the day he started in business life as a stenographer on the Herald. Despite the fact that a charge of shot accidentally fired in Provo canyon came near terminating his career and compelling him to retire from active service for months, he has steadily risen in the service until at the age of 25 he represents Mr. Welby in all routine matters.

### "STORY OF THE TRAIL."

Handsome and Artistic Publication Issued by Salt Lake Route.

Possibly the most artistic and ambitious piece of railroad advertising in book form is "The Story of the Trail," which has been issued by the Printing company of Los Angeles under the auspices of the Salt Lake Route passenger department. The book consists of 200 pages beautifully illustrated, and contains a record of the breaking of the "Mormon" trail between Salt Lake and San Bernardino, a description of the resources contained within the area tributary to the Clark river and data regarding the cities and industries along the route. The cover plate is an exceptionally artistic piece of printing and depicts an Indian wrapped in a flaming blanket in the act of retreating and being overtaken by the advance guard of the army. The book is essentially a work of art. It was compiled by Douglas White, who also carries the copyright.

The books, which make handsome souvenirs, are on sale at the local agency of the road.

### SCALPER CONVICTED.

Edward Goodman Appeals His Case to the Supreme Court.

Chicago, Oct. 17.—The first case of conviction and imprisonment for a ticket scalper has been heard in Chicago through the activities of the Western Passenger Association Protective bureau. Edward Goodman was tried and convicted in Judge McLean's court on a charge of having fraudulently used a pass of the Great Western railroad, and having changed the date of its termination. He has appealed to the supreme court, 30 days having been granted him in which to perfect his appeal. Goodman had been riding on a pass which was issued to a foreman of the Great Western, good for passage of the foreman and 12 employees between Chicago and Minneapolis. The foreman said he lost the pass. It was taken up last January from a man who was taking four other men with him to Minneapolis. The legal department of the railroad discovered that the pass had been in the hands of Goodman for several months, and that during that time he had rented it to more than 20 men.

### STRANDED AT LUNTER.

Rescue Party Sent Out for Automobile Which Refused to Work.

Dr. T. G. Odell, who is located at Murray, and who also owns an automobile, has evidently been having "experience" with the machine during the past few hours, to judge from a message sent into a local garage this morning. It was an appeal for a car to make the run to Hunter to rescue his wife and two children, who were stranded at a farm house, where it is stranded.

The request read something like this: "The car lasted longer than ever before this time. I have it in my garage and now hung up at Hunter, 15 miles south of the Temple, 10 to 12 miles from the west end of the road, about 10 miles from the residence of Joel M. Mearns, a prosperous farmer living at that point. The car is locked in his barn, and I refuse to speak of it until it is rescued. I will give the price of the car to whoever brings it to me. I will give the price of the car to whoever brings it to me. I will give the price of the car to whoever brings it to me."

### BOY GETS A JOB.

Earl Bent Hired by His Mother at Fifty Cents a Week.

The first of the Juvenile court boys to run away from the Morris school or detention home was up before Judge Brown today and after signing a pledge to tell the truth in the future was hired out to his own mother at 50 cents per week. The boy's name is Earl Bent, and at the conclusion of his hearing he wrote out the following pledge and signed it: "I will tell the truth if it kills me or not."

On Saturday he left the Morris school without leave and went to his home and that night slept in a delivery wagon. Judge Brown gave the boy a lecture and told him that he acted as if he did not care for his mother so he would hire him out to her and he could expect to be treated as a hired man. The bargain was made and the boy went home and promised to return to the public school this afternoon.

When seen by a "News" reporter today Mr. Thompson stated that he had nothing to say for publication in regard to his resignation except that he had informed the court about the first of the year that he would resign as soon as he completed volume 28. This work was closed up Saturday, so yesterday the resignation was submitted.

A number of lawyers are after the position, but as yet only three have filed written applications. They are A. B. Elder, C. W. Collins and E. Q. Leatherwood. ### ADVICE BY BREEDEN.

Gives Opinion in Relation to Marriage And Vacancy in City Council.

In response to a query from the county clerk of Mantel, Attorney General Breeden rules that, under the statutes, it is required of parties about to marry, to make the customary affidavit as to their legal status before the county clerk, and that an affidavit before any local notary will not do. At the same time, the judge says this will work a hardship in many cases, but this cannot be helped until the law is changed.

### THE CHURCH OF THE LATTER-DAY SAINTS.

The exercises opened by the choir singing "The Two Grenadiers." Prayer was offered by Elder Dennis E. Harris. "Hail in Joy and Sorrow" was rendered by the choir and orchestra.

President Brimhall spoke affectionately and appreciatively of the work of President Brigham Young, President A. O. Smoot and Dr. Karl G. Maeser, in connection with the university, and congratulated the students on the favorable auspices under which they were gathered. He introduced Jesse Knight as the man, now living, who had done more for the university than any other man in a financial way for the university.

Mr. Knight spoke briefly, repeating a prophecy which he had made the first time he spoke in the university, namely, that the school would some day be the greatest in the world. This was because it was founded on revelation, and would, therefore, succeed. He admonished the students to be honest and upright in their conduct, and to be true to their principles, and to be true to the university.

Secy. Dusenberry read the roll of the first 25 students, and the present responded, arising to answer to their names, and were each greeted with applause. They were Joseph B. Keeler, Mrs. Olive Smoot Bean, Mrs. Alice Smoot, Newell M. Rose, McEwan Hays, Mrs. Mary John, Mrs. Mary Maryette Riggs Beesley, Mrs. Mary Rogers Farmer, Mrs. Althea Rogers Halliday, Mrs. Hannah Stubbs Jones. Ray Holdaway rendered a piano selection.

President Brimhall, in introducing Judge J. E. Booth, one of the members of the faculty, and still a member of the faculty, made reference to the days of Dr. Maeser and the spirit which actuated the faculty and students at that day, bearing testimony that the same spirit now prevailed in the institution.

Judge Booth made a characteristic address, referring humorously to early students and conditions. He spoke of the educational work of Judge W. N. Dusenberry, and of the work of his sister, Mrs. Mary Watson, in this city. They had built up a school on the foundation of which the Brigham Young university was built.

He spoke of the work of Judge Booth, who had gained prominence in church and state, who were graduates of the school and belonged to the school, encouraging all to work for success, and to cultivate honesty in their work. Judge Booth stated in this connection that it had come to him from reliable authority that the dean of one of the prominent eastern universities had said that he had no greater confidence in the credit from any institution of learning in the country than in those presented by students of the Brigham Young university. The students should aim to sustain this reputation by being honest and conscientious in their work.

Dr. John A. Whitsoe, the youngest member of the faculty, expressed great pleasure in the exercises of the day, and encouraged the students to continued diligence and enthusiasm of the school, and their own development.

President Brimhall, in introducing Mrs. Susan Young Gates, as a representative of Brigham Young, the founder of the school, spoke highly of the characteristics exhibited by the family who had carried out their father's desire in conveying property to the institution, which he had designed for it, when they were not legally obligated by reason of lapse of time and legal obstacles, after the death of their father, President Young, to do so.

Mrs. Gates referred to the remarks of Mr. Knight in regard to prophecy. It reminded her of an incident in President Heber C. Kimball's life. President Kimball made a prophecy that a certain man would do a certain thing, and that man did it.

## B. Y. UNIVERSITY FOUNDER'S DAY.

Thirtieth Anniversary Fittingly Commemorated by Students, Faculty and Trustees

### SCHOOL'S PHENOMENAL GROWTH

Interesting Reminiscence of Its Founders, President Brigham Young And Others.

### Special Correspondence.

Provo, Utah, Oct. 17.—Founder's day, in commemoration of the founding of the Brigham Young academy, now university, by President Brigham Young 30 years ago, was celebrated by the institution yesterday with great success. At 9:30 a procession numbering about 900, ranging in age from the kindergarten children to members of the faculty, formed at the University and marched on Academy avenue and Center street to the site of the building (destroyed by fire in 1884), which was the first home of the academy. The procession made an interesting spectacle, with the school flags and banners, and enlivened with enthusiastic class and college yells, and music from the University band. A new feature was paraded this year. In the front rank were 20 men and women, one of them acting as standard bearer, carrying the Stars and Stripes. This division represented the first 25 students of the academy, and carried a banner inscribed "B. Y. U., 1875." Among them were some of the first 25 students, and others were the sons and daughters of the pioneer band. Following them came the present students, commencing with the children of the kindergarten, with a banner "B. Y. U., 1905." The procession continued on to the university, where services were held in college hall. The speakers' platform was draped in the university colors, white and blue, with banners of the various classes tentatively displayed, and various scientific instruments and specimens of the production of the department of arts and industries grouped amid a profusion of plants and flowers, and seated on an elevation, the chief feature in the beautiful picture was Miss Hazel Argyle, representing the college girls.

On the platform were seated Vice President David John, Secretary William H. Dusenberry, Mrs. Susan Young Gates, Jesse Knight and Lafayette Holbrook of the board of trustees; President Brimhall, Joseph B. Keeler, N. L. Nelson and J. E. Booth of the faculty. President Wm. H.
